No. of Lanes:	2	Slope:	Level
		Speed Limit:	89 km/h
Cluster Variables			
GV14:	09 Braking and steering right		
GV64:	13 Negotiating a curve		
GV65:	87 Animal in roadway		
GV66:	1 Tracking		
GV67:	4 Vehicle departed roadway		

CAUSAL FACTOR: *Evasive Maneuver - Avoid Animal or Pedestrian*
ROADSIDE DEPARTURE: *Right*

The subject vehicle was proceeding along a two-lane, rural road traveling approximately 72 km/h (45 mph). A large dog jumped onto the roadway. The driver made an evasive maneuver to avoid the dog and the vehicle's right wheels dropped off the right shoulder of the road and started to dig in. The driver over-corrected, lost control and had further road excursions.
